Notice of Change

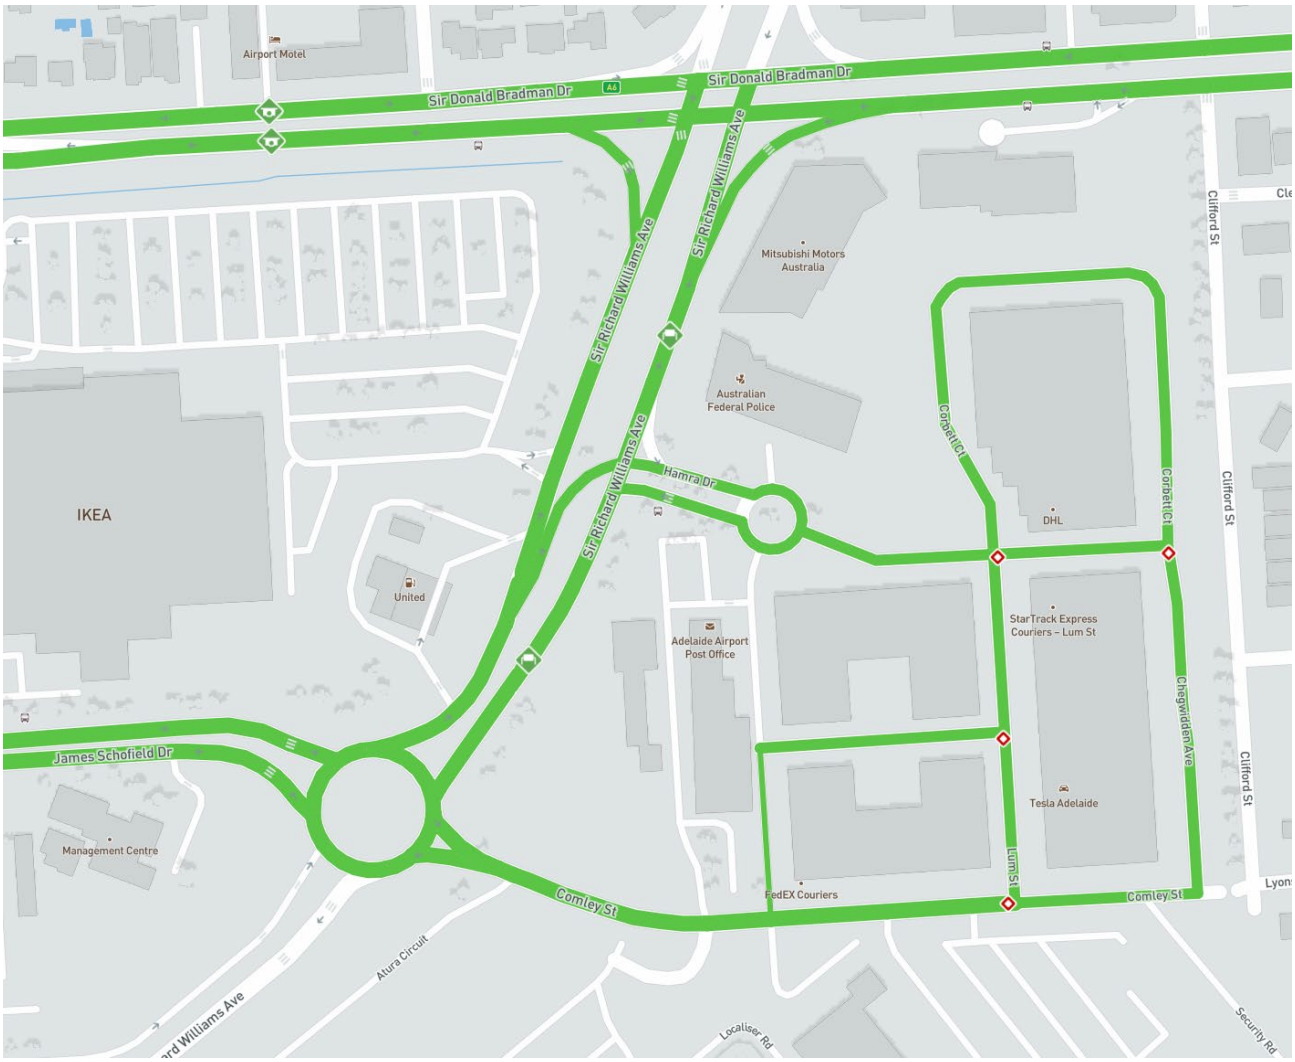

15 October 2026

Adelaide Airport – Notice of Operational Change - Gazettal of Comley Street Link Road

WHAT IS CHANGING?

This change formalises heavy vehicle access along the new road connection and extends the existing gazetted route, supporting freight movements to and from the Export Park precinct.

The updated approach route and gazetted road network for 26 m B-Double (GML) vehicles servicing the Export Park Precinct are identified in green below.

Notice of Change

WHEN IS IT HAPPENING?

The change took effect from Friday 02 October 2026.

WHAT ARE THE IMPACTS?

- Eligible 26 m B-Double (GML) vehicles may now legally access and travel along the newly constructed section of Comley Street.
- Freight operators, transport providers and delivery companies should update route information and driver instructions to incorporate the new road connection.
- Improved access and vehicle circulation is expected for freight movements travelling to and from Export Park.

WHAT WILL WE DO?

Adelaide Airport has worked with the relevant authorities to obtain gazettal approval and will:

- Continue to monitor vehicle movements and road safety outcomes.
- Communicate the change to key operational stakeholders and precinct tenants.

WHAT DO I HAVE TO DO?

- Ensure those responsible for freight movements, deliveries and transport planning are aware of this change.
- Communicate the updated access arrangements to truck operators and drivers as required.
- Update any route guides or operational procedures that reference heavy vehicle access within the Export Park precinct.

WHAT IF I HAVE ANY QUESTIONS?

Should you have any concerns or would like to know more about this project, please contact:
ADLProjects@aal.com.au

We appreciate your understanding as we undertake this important work to make Adelaide Airport more seamless, connected, and easy.
